## My Wallet benefits package

### What is it?

We love to reward our contractors. That's why we offer a great range of additional benefits through our unique package My Wallet. The scheme is based on a simple points system where you earn points each time you are paid which can then be used to redeem the rewards you want, when you want them. There will also be opportunities to earn bonus points for different activities throughout the year.

### How does it work?

The My Wallet benefits platform is accessed via the Contractor Portal. This is where you are able to view your current Reward Points total. Once enough points have been earned they can be redeemed for any of the benefits within the package. Whether it be a free development course, cash added to your wages or even a free salary advance, the choice is yours.
