My Wallet benefits package

What is it?

We love to reward our contractors. That's why we offer a great range of additional benefits through our unique package My Wallet. The scheme is based on a simple points system where you earn points each time you are paid which can then be used to redeem the rewards you want, when you want them. There will also be opportunities to earn bonus points for different activities throughout the year.

How does it work?

The My Wallet benefits platform is accessed via the Contractor Portal. This is where you are able to view your current Reward Points total. Once enough points have been earned they can be redeemed for any of the benefits within the package. Whether it be a free coffee, cash added to your wages or even a free salary advance, the choice is yours.

2 CMME

Receive a free mortgage consultation with the experts. CMME specialise in financial advice and products for contractors. With over 25 years of experience, you'll be in safe hands.

3 Points for Cash*

While you will be earning Reward Points each time you are paid and for different activities throughout the year, you don't have to redeem them against the My Wallet benefits. You may decide to swap your points for cash instead.
