ABOUT US

People Group Services is a family-owned business with a long history of providing compliant payroll services to recruitment agencies and their contractors.

Started by CEO Terry Hillier in 2007, the business grew and became a shining light of compliant payroll within the industry, picking up a numerous business awards along the way.

Having accumulated 15 years of payroll expertise, the business rebranded during 2017 with a fresh new look. People Group Services was born, offering a range of enhanced payroll solutions.

OUR SOLUTIONS

People Group Services was created to fit the needs of an ever-changing contingent workforce. Typical payroll solutions have become outdated and no longer provide the experience that a tech savvy market expects. This is where PGS is different.

Broken down between Pay and Compliance, PGS provides a suite of services which create a seamless candidate experience. Ensuring complete transparency and a full audit trail visible to both recruiters, end-hirers and contractors.

Wrapped up in a simple and coherent package, PGS is the choice of like-minded forward thinkers.

We offer a solution that can fit agency requirements. Our partnership approach means that we will work with you to ensure our products will optimise your business efficiencies and maximise value.

"Communication has been exceptional, and we are very thankful for everything you have done to get things in place smoothly for our contractors and all your help & advice."

**Company Director,
Vida Education**

PEO

Simplicity at its finest. Full PAYE with all benefits, free to contractors with simple payslips. Not to mention complete transparency, supply chain security and efficiency tools. Professional Employment Organisation (PEO) protects your business on all fronts and is the preferred payroll option for contractors. PEO is operated via People PAYE Limited.

GUIDE TO PEO

Our PEO payroll model is just one of the products that offers you an

innovative, yet compliant solution that will drive productivity and enhance your business.

What is a PEO?

A PEO stands for Professional Employment Organisation.

The model originated in the USA to offer affordable private healthcare cover for smaller employers. Small companies found it hard to source affordable life and medical cover for their employees, so a PEO combined all the small companies together to form a large group organisation and then access life and medical cover at corporate rates.

People Group Services has led the way in the sector, bringing the model over to the UK and innovating and modifying it to create a solution that is perfect for the UK market.

In the last 4 years, this has become our fastest growing pay solution offering unique benefits to agencies and unrivalled advantages to thousands of contractors.

How does it work?

Simply put, using PEO, employees are paid on full PAYE basis and given a range of additional benefits which can be tailored to requirements.

STEP 1

PEO starts with the True Gross pay (inclusive of holiday pay) of the contractor, which is set at a level that supports NMW and AWR before any employee deductions. This is the figure that appears on the payslip

STEP 2

People PAYE separately charges an uplift to the agency, which covers our margin (typically less than a compliant umbrella product), employer's National Insurance, employer's pension, the apprenticeship levy, and a small provision for any statutory pay. Unlike an Umbrella product, the employer deductions and margins do not have to be shown to the contractor as the uplift is a business-to-business arrangement.

Therefore, from a contractor's perspective, the payslip is much easier to understand. All that is displayed are the Employee deductions that the contractor is familiar with, which results in far fewer questions to either the agency or the payroll provider, greater transparency, and enhanced trust.

Plus, even better, the contractor will receive the same (or possibly more) net pay versus an umbrella solution.

SIMPLICITY
TRANSPARENCY
EFFICIENCY

Why is PEO different from other solutions?

*Annually we assess the actual cost of disbursements and non-disbursements under this model. This process sets the % VAT applicable for the forthcoming year. E.g. (1%to 4%)

"By reviewing our payroll, we've significantly improved our cash flow, increased contractor loyalty and reduced our payroll enquiry levels by 90%"

Employee Pension	£4.10		£415.90
Net PAY:			£415.90
TOTAL PAY:			£415.90

Assignment Rate

Both assignment reconciliations show the total pay (the workers gross earnings) to be the same. However, the PEO joint employment assignment rate is lower as the joint employers are invoiced separately for all employment costs in addition to this rate. The Umbrella assignment rate is inflated to account for the employment costs that must be deducted.

The umbrella assignment rate is usually the rate that is advertised and hence creates confusion with workers because they believe that this is their actual pay rate. Even though they should have received a KID that explain all the deductions.

THE BENEFITS OF JOINT EMPLOYMENT

- Overall reduction in admin, leaving you free to concentrate on core business
- Single tax code and maximum portability
- Outsourcing payroll where contracts state that the agency must be the employer (not previously allowed)
- Compliance savings - portability of workers and speed to get them to work
- Cost of insurance savings - we can reduce your insurance costs
- Full usage of our Apprenticeship Levy
- Cash flow savings and actual savings if using ID facilities
- VAT mitigation between joint employers of 96% to 99%

People PAYE offers genuine Joint-employment

People PAYE Joint Employment documentation has been fully reviewed by HMRC, BEIS, EASI and other regulating bodies and gained the full seal of approval from Professional Passport industry compliance experts.

BEIS response received 2022

“We have carefully considered this process and your documentation. In principle, our view is that a “joint employment” arrangement is not contrary to the provisions of section 13(2) of the Employment Agencies Act 1973 (which defines employment agency activity); or section 13(3) of the 1973 Act (which defines employment business activity”).

“It would seem from your documentation that a joint employment arrangement can be used in general employment relationships and also where an employment business is involved in providing work-finding services. I also take on board your view that joint employment works and that your contracts and relationships demonstrate that both “employers” are equally (jointly and severally) liable in relation to providing employment rights and compliance (including the 1973 Act and the Conduct of Employment Agencies and Employment Businesses Regulations 2003)”.

“the joint employment model, based on the evidence we have seen, is not contrary to the 1973 Act”

“regulations 13A and 14 do not prevent joint employment or the supply of a KID to a work-seeker with joint employment as an option”.

HMRC response received 2018 - Excerpts from HMRC response to full disclosure letter:

In my opinion, the guidance is stating that there can be no taxable supply (of staff) between joint employers because the workers in question are each the employer's own employees. So even when monies (This potential monetary consideration) pass between them for paying the workers - including salaries and resulting taxes - there is still no supply between the joint employers, because the monies are related to paying their own workers. Put another way, if the worker wasn't paid by one of the joint employers, the other joint employer(s) would be jointly and severally liable to pay the worker, so the monies in question are the wages/related taxes and pensions.

To summerise, I consider that there is a joint employment given the conditions and contracts provided. Remittances between the agency and PPL (People PAYE Limited) would be subject to guidance at 700/34 however only costs that can be associated with wages, realted taxes, pensions and statutory payments would be classified as outside the scope of VAT.

JOINT EMPLOYMENT

There are numerous advantages of using our PEO model including:

- **Guaranteed compliance**
- **Outsourcing the admin burden**
- **Happy contractors**
- **Increased contractor loyalty**
- **Positive brand experience**
- **Contractor health & wellbeing**
- **Apprentice Levy**
- **Lead system and Key Information documents**

THE ADVANTAGES OF PEO...

Guaranteed compliance

One of the many benefits of the PEO is its simplicity.

It ensures complete transparency for the contractor and the assurance of total compliance for the agency. PEO doesn't have the difficult-to-estimate employer deductions. Set the True Gross Pay rate based upon the appropriate AWR and NMW values and compliance is assured.

Outsourcing the admin burden

As a joint employer we take on the administrative burden.

You save time and money by mitigating the administration and hidden expenses involved in running in-house PAYE; including payroll & admin staffing costs, software, licensing, insurances, utility costs, statutory costs and legal/tribunal costs. When comparing these true costs, in-house PAYE is approximately 2% more expensive than outsourced PEO.

Happy contractors

For your contractors, a range of benefits help drive customer satisfaction.

My Wallet

This benefits platform is a points-based system. Each time a contractor is paid, we give points, which can be spent on the benefits contractors prefer. Including CPD Courses, specialist contractor mortgage advice, healthcare plans, high street discounts and the very popular tastecard+. The My Wallet package sits alongside all of the statutory benefits that you would expect such as professional insurance cover up to £20 million, continuous statutory employment rights and transparent pension/holiday provision.

Anytime wages

Another popular platform for your contractors is the Anytime Wages service which gives contractors greater flexibility by providing access to their wages early. The fully automated system allows them to apply for an advance of their wages prior to pay day. It's available 24/7, by logging into their portal, selecting the amount they require, and funds are usually paid within 1 hour.

Easily accessible service

Our dedicated Client Care team are available at the end of the phone or email and webchat to help out with setting up contractors and any queries they may have. We also offer a simple online contractor portal available 24/7 for contractors to quickly and easily check information, update their details.

MORE >>>

Agency First Response

Try our ground-breaking first response system, designed to keep your agency in line with BEIS's latest concerns over when you first issue a Key Information Document.

This system ensures you pass the first hurdle as an employment business, it issues, stores and demonstrates that each document has been passed to the candidate in the correct order.

Increased contractor loyalty

Under People PEO the contractor is quoted their genuine gross pay rate, unlike umbrella where they are quoted the limited company rate. This means that the weekly payslip contractors receive is simpler and much easier-to-understand. As a result, the level of queries to agencies is dramatically reduced, building loyalty and contractor referrals.

Simple to use Annual Leave & Holiday Pay Process

Our contractor portal keeps contractors informed of their annual leave and holiday pay position in real time. Each payslip displays the balance of annual leave available. We issue numerous reminders to contractors throughout the year to book their annual leave. The process is transparent and simple. Contractors are empowered to manage their annual leave on the portal, as well as over phone and email with our client care team.

Positive brand experience

The transparency and simplicity of our PEO product will enhance your candidate's journey and experience with you, which in turn will mean more protection and positive exposure for your brand.

Happier contractors = happier clients, which will grow trust and loyalty in your business.

Contractor health & wellbeing

Our partnership with Winningtemp provides the tools to measure the temperature of your workforce, boost employee engagement, and make measurable gains in performance.

Powered by AI, the Winningtemp platform provides agile performance management, churn prediction insights, job satisfaction data & much more. The unique, science-based software has been developed with the help of human behaviour psychologists & AI experts for companies with 40+ employees.

- New levels of engagement with contractors
- Wellness; pre-empt mental health issues such as stress and burnout
- Proactively deal with issues before problems grow
- Reduce absenteeism by addressing problems in the workforce
- Reduce staff/contractor turnover
- Increase contractor satisfaction

THE ADVANTAGE

POWER BEYOND PAYROLL

Apprentice Levy

Unlike other third-party payroll solutions, People Group Services Joint Employment model allows all joint employers access to our apprenticeship levy pot without restriction.

Yes, irrespective of whether you qualify for, or pay into the apprenticeship levy right now, you can take full advantage of up-skilling your internal staff or adding supplementary qualifications for your contractors (eligibility rules do apply).

Joint employment allows both parties to utilise what has been generated to date and help those employees working in the business develop their abilities under the scheme.

Lead system and Key Information documents

PGS have a unique referral and on boarding platform designed to give you full visibility of the candidates registration journey.

Our contractor on boarding process has been developed so we can get contractors registered even quicker online, but still ensuring they receive the personal touch that so many contractors still prefer. You will have unique access to the platform where you can not only refer your candidates simply to PGS but also generate Key Information documents with accurate information every time. When you use this platform to refer your candidate they will receive an online application immediately via sms and email. You will have full visibility of the contractors journey every step of the way.

Another addition to this platform and having been in recent discussion with BEIS and EASI, we have developed our referral system to automate instant Key Information Documents (KID's). Whilst Incorporating accurate figures based on a workers true situation, on or before you the agency supply work finding services.

This functionality within our lead system now allows you to comply with the conduct regulations 2003 in full.

Benefits to you from using the referral platform

- Manage the candidates you refer to us anytime of the day or week
- Key Information document issuing requirements are complied with.
- A personal platform for you to refer and manage your candidates from referral to registration.
- No questioning if a referral has been received by PGS
- Assurance that your candidate is contacted as soon as the referral is added
- Quick & easy - no need to spend time writing emails or checking on progress
- Flexible & easy access - viewable online even on your mobile phone

ANOTHER ADDITIONAL BENEFIT OF PEO

What cashflow savings?

The joint employment element of VAT notice 700/34 states that if genuine joint employment exists (on the employment contract and in practice) then any disbursements billed between those employers will not attract VAT.

Between 1% - 4% only of our invoice is non-disbursement and will attract VAT – so this means that 96% to 99% of the invoice is VAT free. Giving the agency good cash flow savings, improving liquidity, and reducing the cost of finance.

Are you in a VAT sensitive industry?

If you operate in an industry with VAT sensitivity or special VAT rules then the PEO Joint Employment model by PGS, recognised by HMRC, will be particularly valuable.

End clients in sectors such as Healthcare, Insurance, Banking and Charities operate under different VAT rules, and this has a direct result on choosing appropriate contractual and billing arrangements throughout the supply chain (End-client hirer, Agency, Intermediary, & Worker). In these instances the HMRC acknowledged VAT efficiencies of PEO can represent a significant cost saving to end-client hirers, a margin & gross profit improvement to agencies and/or a compelling net pay increase to workers (where the cost savings are passed down).

Has maintaining liquidity and positive cashflow been more of a challenge in the 2020's?

Whether your business is growing or shrinking cashflow is often a growth limiting factor. The outside impacts of the COVID pandemic, combined with elongated client payment terms, and the movement of contractors away from limited companies due to IR35 has amplified this issue. Umbrella company invoices attract VAT on the entire transaction - which places an unwelcome additional cashflow burden on your business. The VAT efficiencies of our PEO model makes your business leaner, and provides 'free' cashflow and welcome liquidity.

Does your umbrella company cite the Nurses concession as a reason not to apply VAT on invoices relating to Nurses?

HM Revenue and Customs (HMRC) has very clearly stated that this is not appropriate:

'umbrella companies do not meet the criteria to apply the nursing concession on invoices to recruitment agencies'

Umbrella companies relying on the Nurses concession expose recruitment agencies to significant financial risk. Genuine joint-employment, such as PEO, does provide genuine HMRC recognised VAT efficiency (VAT is only applied to 1% - 4% of our invoice to recruiters).

AGENCY CASHFLOW BENEFIT

Whilst joint employment offers VAT cash flow savings alongside a number of other benefits, there are certain costs that are vatable as confirmed by HM Revenue & Customs (HMRC). See HMRC letter on pages 17 and 18.

Was VAT deferral used in your business during lockdown? Would you like to make this a permanent feature in your business?

Many recruitment agencies utilised the Chancellor's VAT deferral scheme. Indeed this deferral provided a much needed lifeline to many recruiters, and allowed them the breathing space from operating capital. People Group Services can help you to continue the effects of the VAT deferral indefinitely.

Explained Example - A weekly wage bill of £30,000 from PEO attracts VAT on 3.5% of the value.

Wage bill	£30,000
Vatable element	£1,050
20% VAT	£210
Total Agency Cost	£30,210 (Vs Umbrella £36,000)

*Annually we assess the actual cost of disbursements and non-disbursements under this model. This process sets the % VAT applicable for the forthcoming year. E.g. 2022/23 tax year = 3.5%

JOINT EMPLOYMENT CONTRACTS

Contracts will exist between People PAYE and the agency and between the contractor and both People PAYE and the agency as joint employers. The employment contracts will confirm the joint employment status naming both parties, to satisfy VAT Notice 700/34.

VAT Notice 700/34: Staff. Para 3.2: Joint Employment

<https://www.gov.uk/guidance/companies-that-supply-staff-and-staff-bureaux-vat-notice-70034>

3.2 Joint-employment

Where staff are jointly employed there is no supply for VAT purposes between the joint employers. Staff are jointly employed if their contracts of employment or letters of appointment make it clear that they have more than one employer. The contract must expressly specify who the employers are for example 'Company A, Company B and Company C', or 'Company A and its subsidiaries'.

THE EVIDENCE - HMRC CONFIRMATION

When we were designing our PEO model it was important to us to make sure that the solution was reliable and sustainable. After studying the employment, contractual, legal and taxation precedents for joint employment we invited HM Revenue and Customs to review and comment.

HMRC understood that PEO operated correctly is not a tax product. They shared the key elements that would evidence genuine joint employment which we used to fine-tune the People PEO model. The end result is the extracted HMRC letter confirming that our contracts, practices and processes evidence genuine joint employment.

NB. Not all PEO's are created equal. Some solutions marketed as PEO or joint-employment models are reverse engineered umbrella's and don't stand up to scrutiny.

VAT number XXX XXX XX

Dear Mr XXXXX,

Thank you for your emails dated 8 March 2018 and 27 July 2018 in which you set out specific VAT queries in relation to the proposed People PAYE Ltd model (PPL). It is my understanding that you wanted clarification regarding the application of VAT notice 700/34 with specific focus on what costs would be covered under disbursements between joint employers. I have now completed my review of the relevant legislation and guidance and can comment as follows.

Firstly, I had to consider if the agreement between parties constitutes a joint employment as per VAT notice 700/34. You provided sample contracts and supporting documents detailing the division of responsibility between PPL and an 'agency'. If the working arrangement adheres to the contracts provided then I would consider a legitimate joint employment exists. I therefore agree that VAT notice 700/34 applies.

As far as employment costs are concerned guidance at VATSC06000 says "if staff are jointly employed by two or more parties it is not possible for one of the employers to make a taxable supply of the staff to another, even where it may charge part of the wages etc. costs of the staff."

VAT notice 700/34 gives further advice on paymaster services. It states "Paymaster services can involve one company paying salaries and other expenses such as National Insurance and pension contributions. They commonly occur between associated companies in 2 situations:

- where employees are jointly employed by 2 or more companies and one company undertakes to pay salaries and the other expenses which it then recovers from the other joint employers
- where each of a number of associated companies employs its own staff, but one company (the paymaster) pays salaries and other expenses on behalf of the others who then pay their share of the costs to the paymaster

Recovery of monies paid out by the paymaster in either of these situations is not subject to VAT as it's a disbursement. For more information about this see VAT guide (Notice 700)."

Information is available in large print, audio and Braille formats.

In my opinion, the guidance is stating that there can be no taxable supply (of staff) between joint employers because the workers in question are each the employer's own employees. So, even when monies (thus potential monetary consideration) pass between them for paying the workers – including salaries and resulting taxes - there is still no supply between the joint employers, because the monies are related to paying their own workers. Put another way, if the worker wasn't paid by one of the joint employers, the other joint employer(s) would be jointly and severally liable to pay the worker, so the monies in question are the wages/related taxes and pensions.

To summarise, I consider that there is a joint employment given the conditions and contracts provided. Remittances between the agency and PPL would be subject to guidance at 700/34 however only costs that can be associated with wages, related taxes, pensions and statutory payments would be classified as outside the scope of VAT.
